

TCI Group Climate Action Initiative

TCI Group believes that a successful business must live in the future and that global climate impact is a significant issue that humanity must face. Per the Task Force on Climate-related Financial Disclosures (TCFD), the Greenhouse Gas Inventory Standard (ISO14064), the Specification for the Demonstration of Carbon Neutrality (PAS2060), and joining the international initiatives RE100, EP100, and committing to the SBTi scientific carbon reduction target, TCI proactively develops a sustainable strategy and carries out a series of sustainable actions to achieve net zero carbon emissions by 2040.

TCI Group invites our important partners to join us on carbon reduction and net-zero emissions in the hope that our ecosystem will move towards a more resilient and sustainable future!

__(please insert your company name)_____ and TCI Group commit to pursuing sustainable development. We take the practice of ESG to mitigate the impact of greenhouse gases on the climate and have taken the following actions in response to climate change (multiple choice):

Conduct ISO 14064 greenhouse gas inventory, year conducted _____; or expected to be conducted in year _____

Note: For the year conducted, please fill in the year of greenhouse gas emissions. For example, if inventory was conducted in 2022 for emissions in 2021, please fill in 2021.

Set net-zero carbon emissions target, the target is expected to be set in year _____; expected to achieve net-zero emissions in year _____

Note: TCI set a net zero target in 2022, and the expected year of achievement is 2040.

Implementation of carbon reduction plan, target to reduce _____ metric tons of CO₂e, year of achievement _____, base year _____

Note: TCI set a carbon reduction target in 2021, with a target carbon reduction of 10,000 metric tons, year of achievement 2030, base year 2018. The base year is the first year the company conducts a carbon inventory or the year in which the carbon inventory is standardized as a comparative basis.

Joined environment-related international initiative _____; expected to

join _____ in year _____

Note: TCI commits to SBTi in 2021, joined RE100 in 2018; expected to join Alliance for Water Stewardship in 2023
